# Subject Index

Volume 31, 1987

Contributor index on page 969.

- Abdomen**, Burkitt-type lymphoma, FNAC diagnosis, 1
- Acanthamoebic keratitis**, cytodiagnosis, 655
- Acquired immune deficiency syndrome (AIDS)**  
CSF cytology, 662  
FNABC, 659
- Actinomycosis**  
Cervical and endometrial, documentation by smear and biopsy, 955  
Liver, FNA diagnosis, 751
- Adenocarcinoid tumor of bronchial tree**, FNABC, 726
- Adenocarcinoma**  
In peritoneal washings, detection by Mab B72.3, 649  
*In situ* of cervix, cytodiagnosis, 397  
Metastatic in effusions, immunohistochemical differentiation, 807  
Oncocytoid of parotid gland, FNAC and EM, 351  
Ovarian, morphologic analysis of cells in effusions, 441  
Pleomorphic of pancreas, Mab evaluation, 665
- Prostate**  
Prognostic factors, 682  
Cells in urine, 662
- Adenoma, lactating**, FNAC, 666
- Adrenal gland**  
Metastatic renal cell carcinoma, FNAC, 512  
Pheochromocytoma, cytopathology, 684  
Pheochromocytoma-ganglioneuroma, FNAC and immunohistochemistry, 33
- Alternaria**, in bronchoalveolar lavage specimen, cytomorphology, 243
- Amiodarone toxicity**, pulmonary, FNA and EM, 357
- Anogenital region**, HPV infections and neoplasia, in women with Hodgkin's disease, 845
- Anti-chymotrypsin**, in effusion specimens, immunohistochemical study, 104
- Antibodies**  
GI-specific, potential clinical value, 802  
Monoclonal (Mab)  
Applications of Mab B72.3 in clinical cytology, 537  
CMV detection in lavage specimens, 648  
Detection of adenocarcinoma in peritoneal washings, 649  
ER determination, comparison with other methods, 557  
Pleomorphic adenocarcinoma of pancreas, 665  
Typing of intermediate filaments in difficult aspirates, 253  
Use in small cell carcinoma of lung, 683  
Use of panel in evaluation of CNS cytologic specimens, 815
- Asbestos, crocidolite**, induction of experimental mesotheliomas, 369
- Ascitic fluid**  
Crystalline deposits, in cryoglobulinemia, 631  
Malignant mixed mesodermal of ovary, cytologic features, 63  
Small cell carcinoma of ovary, large cell variant, 673
- Aspiration biopsy/cytology/cytopathology**, fine needle (FNA, FNAB, FNAC, FNABC, ABC)
- AIDS**, 659
- Adrenal**  
Metastatic renal cell carcinoma, 512  
Pheochromocytoma-ganglioneuroma, immunohistochemistry and EM, 33  
Assessment of unstained smears, 643
- Black thyroid**, 655
- Bone**, 670, 678  
Lesions, primary, 177  
Osteosarcoma, 686
- Brain**, progressive multifocal leukoencephalopathy, 505
- Breast**  
Carcinoma ER status  
Comparison of methods for determination, 557  
Cytologic predictors, 671  
Clinically occult lesions, stereotaxic guidance, 653  
Colloid carcinoma, morphologic and morphometric study, 742  
Fibroadenoma, cytology and origin of naked nuclei, 285  
Importance of the aspirator, 281  
Intraductal carcinoma, 660  
Lactating adenoma, 666  
Lesions, sample preparation for ER assay, 377  
Male carcinoma with argyrophilic cells, 379
- Masses**  
Statistical analysis of results, 276  
Statistical approach to diagnosis, 737  
Triage role in, 731  
Metastatic neoplasms, 291, 661  
Mixed apocrine-medullary carcinoma, 322  
Radiation-induced changes, 309

- Sarcoidosis, 378  
Sarcomatous lesions, 652  
Spindle cell tumor, cytodiagnosis using antisera to EMA, 317  
Supernumerary, 311  
Bronchial tree, adenocarcinoid tumor, 726  
Bronchioloalveolar carcinoma, 684  
With immunocytochemical study, 717  
Cervix  
Chordoma, 765  
Chordoma with carcinomatous features, 769  
Paraganglioma with intranuclear vacuoles, 29  
Chondroblastoma, 658  
Comparison with fine needle cut biopsy, 669  
EM of samples, method of processing for, 194  
Epididymis, microfilariae in smears, 59  
Extracranial meningioma presenting as a cervical mass, 502  
Fibromatoses, 683  
GI tract, endoscopic, 481  
Gallbladder, xanthogranulomatous cystitis, 493  
Ganglioneuroblastoma, 583  
Hashimoto's thyroiditis, diagnostic pitfall, 666  
Hemangioendothelioma presenting with multiple lesions, 497  
Immunoperoxidase labeling index, 660  
Immunoperoxidase staining of Papanicolaou-stained specimens, 517  
In teaching hospital, 667  
Inguinal lymph nodes, 675  
Intestine, malakoplakia, 53  
Intraoperative guide to surgical decisions, 680  
Large cell calcifying Sertoli cell of testis, 578  
*Leishmania* lymphadenitis, localized, 14  
Liver  
Actinomycosis, 751  
Comparison of cytologic and histologic specimens, 476  
EM and immunocytochemistry, 672  
Local anaphylactic reaction after, 84  
Lung

Inflammatory  
Apparent link with subsequent CIN, 869  
Related to false-negative cytology in CIN, 873  
Squamous, meaning of, 201  
Beta-glucuronidase, tartaric acid resistance to, use in characterization of cells in pleural effusions, 611

## Biopsy

Fixatives, preparation of cytologic smears from, 531

Supernatants, cytodiagnosis of urothelial neoplasms, 665

Body cavity fluids, cytodiagnosis, self-assessment of performance, 656

## Bone

Chondroblastoma, FNAC, 658

Chordoma, FNAB, 765

Chordoma with carcinomatous features, FNA, 769

FNAB, 670, 678

Hemangioendothelioma, FNAC, 497

Osteosarcoma, FNAC, 686

Primary lesions, FNAC, 177

Bone marrow transplants, cyclosporin-treated, urinary cytologic abnormalities, 615

## Brain

Astrocytomas, crush preparations, 83

Progressive multifocal leukoencephalopathy, stereotaxic FNAB cytology, 505

Tumors, stereotaxic cytology, 756

## Breast

## Carcinoma

And benign diseases, cytochemical estimation of G6PDH activity, 249

Cytologic predictors of ER status, 671

ER determination in FN aspirates, 557

In fibroadenoma, cytology, 313

Clinically occult lesions, stereotaxic FNAC diagnosis, 653

Colloid carcinoma, FNA morphology and morphometry, 742

Cyst fluids, cytologic examination, 301

Disseminated cancer, immunocyto-diagnosis of carcino-cy-themia, 68

Ductal carcinoma in effusions, morphologic analysis of cells, 441

## Epithelial changes

Radiation induced, FNAC, 309

Related to menstrual cycle, image analysis study, 305

Fibroadenoma, naked nuclei in FNA smears, 285

Intraductal carcinoma, FNAC, 660

Lactating adenoma, FNAC, 666

Lesions, preparation of FNA samples for ER assay, 377

Male carcinoma with argyrophilic cells, FNA, 379

## Masses

Importance of aspirator in FNA, 281

Statistical analysis of FNAC results, 276

Statistical approach to FNA diagnosis, 737

Triage role of FNAB, 731

Metastatic neoplasms, FNAC, 291, 661

Mixed apocrine-medullary carcinoma, FNAC, 322

Sarcoidosis, FNAB, 378

Sarcomatous lesions, FNAC, 652

Spindle cell tumor, FNA cytodiagnosis using antisera to EMA, 317

Supernumary, FNAC, 311

Bronchial lavage, cellular composition and cytomorphology, effects of chemotherapy, 647

## Bronchoalveolar lavage

Criteria for identifying unsatisfactory specimens, 599

Cytodiagnosis of *Alternaria* infection, 243

Cytodiagnosis of lung carcinoma, 796

Cytodiagnosis of suspected opportunistic infections in immunosuppressed patients, 235

Detection of CMV, 648

Effects of cytocentrifugation on cell counts in samples, 606

Lipoid pneumonia, 668

Metastatic breast carcinoma, 657

Bronchoscopic washing cytology, metastatic breast carcinoma with osteoclastic giant cells, 365

Bronchoscopy, biopsy supernates, cytologic examination, 83

*Brugia malayi*, in aspirates of epididymal lesions, 59

Brushing cytology, endocervix, Curschmann's spiral in, 530

## Cancer

Breast, disseminated, immunocyto-diagnosis of carcino-cy-themia, 68

Cervix, smear diagnosis: Aurel Babes, 642

## Lung

Postbronchoscopic sputum cytology, 166

Relation of sputum cytodiagnosis to cellular characteristics, 170

Relation of sputum cytodiagnosis to patient characteristics, 159

Ovary, Tenckhoff catheter cytology, 649

Carcinocythemia in disseminated breast cancer, immunocyto-diagnosis, 68

Carcinoembryonic antigen (CEA)

Immunohistochemistry in effusions, differentiation of mesothelioma and adenocarcinoma, 807

In effusion specimens, 113

Immunohistochemical study, 104

Carcinogenesis, cervical, loci of mitotic basal cells, 521

Carcinoid, atypical of lung, FNAC, 471

## Carcinoma

Basal cell, cytodiagnosis with DNA image cytometry, 143

## Breast

Colloid, FNA morphology and morphometry, 742

Cytochemical estimation of G6PDH activity, 249

Ductal, morphologic analysis of cells in effusions, 441

ER determination in FN aspirates, 557

In fibroadenoma, cytology, 313

Intraductal, FNAC, 660

Male, with argyrophilic cells, FNAC, 379

Metastatic to lung, bronchioloalveolar lavage, 657

With osteoclastic giant cells, bronchoscopic cytodetection of metastatic, 365

## Bronchioloalveolar

Cytology and immunocytochemistry, 717

FNAC diagnosis, 684

Morphology and immunocytochemistry, 648

Cervical *in situ*, standardized model for cytodiagnosis, 878

- Cervical microinvasive squamous, cytology, 412
- Endometrial, peritoneal washing cytology, 673
- Fallopian tube, primary, clinical and cytologic aspects, 834
- Lung, bronchoalveolar lavage in cytodiagnosis, 796
- Mixed apocrine-medullary of breast, FNAC, 322
- Neuroendocrine
- Cervix, psammoma bodies in, 791
  - Skin, FNA cytology, EM and filament typing, 267
